The removal of Klove from our area would be a great loss to the comm unity. The constant uplifting message, the ability to allow family listening without monitoring is a great asset to familys. All my children and grand children listen and love the service and message provided. This station is a uplift to those who cant leave to seek encouragement outside the home. It fills a service not provided by any other local stations. Their are dozens of other stations and none provide the christian based message and guidance of klove.
